

# THE 8<sup>TH</sup> BANGALORE BENNY SHILO COURSE ON DEVELOPMENTAL BIOLOGY

This course will focus on connecting molecular and cellular pathways to an understanding of the mechanisms that underlie animal development

Image Courtesy: Benny Shilo

Applications are invited from graduate students early in their PhD program and from Undergraduate/Masters students contemplating a research career in developmental biology.

For the online submission form and detailed application instructions: <https://events.ncbs.res.in/event/devbio2017>

There is no application fee.

Application deadline: **September 15<sup>th</sup> 2016**

Accepted students will be provided boarding and lodging.

Please email any queries to: [devbio2017@ncbs.res.in](mailto:devbio2017@ncbs.res.in)

The total number of participants will be restricted to around 40.

The course will be intense and require full-time participation.

Lectures will be accompanied by informal discussion and questions.

Another aspect will include a study of related research papers in work-groups followed by presentations by students and discussion with the instructors.

National Centre for  
Biological Sciences  
GKVK campus  
Bellary Road  
Bangalore - 560065

Organised by NCBS & DBS-TIFR

## INSTRUCTORS

**Amos Arieli**

Weizmann Institute of Science, Rehovot, Israel

**Eli Keshet**

The Hebrew University of Medicine, Jerusalem, Israel

**Zeev Paroush**

The Hebrew University of Medicine, Jerusalem, Israel

**Beni Podbilewicz**

Technion, Haifa, Israel

**Erez Raz**

University of Muenster, Germany

**Eyal Schejter**

Weizmann Institute of Science, Rehovot, Israel

**Benny Shilo**

Weizmann Institute of Science, Rehovot, Israel

**Jean-Paul Vincent**

The Francis Crick Institute, UK

**Talila Volk**

Weizmann Institute of Science, Rehovot, Israel

**Eli Zelzer**

Weizmann Institute of Science, Rehovot, Israel

**16<sup>TH</sup> - 27<sup>TH</sup>**  
**JANUARY**
