

InSDB Student Workshop 21-24th June 2017

Microscopy and Image Analysis in Model systems

21-24 June; 15 Students

Hands on workshop for students to learn microscopy based techniques in live imaging of model organisms such as flies and zebra fish

Genome Engineering in Model Organisms with Crispr/Cas

22-24 June; 20 Students

Lecture based workshop by experts using Crispr/Cas methods to generate gene variants in cell lines and model organisms such as flies, worms and zebra fish

Workshop Registration: 15th Feb – 30th March 2017
